NARROW GUAGE RAILROADS.

There is considerable interest felt in the engineering world, on the subject of "narrow guage Railroads." The Festiniog Railway in Wales, is only *two feet* from rail to rail and by experience has been pronounced eminently successful. They have been tried it is said in India also, with like results.

It is claimed that a road of two feet six inches guage can be built with half the cost, and will do three fourths of the work of one with a four feet eight and a half inch guage. Such roads would therefore be especially useful in localities, where a "through line" is not desired, but only access for local freights and passengers. Such roads could be made with very sharp curves, thus avoiding in hilly countries tunnels, viaducts and heavy earth work.

I hope this matter will be inquired into. There are many counties in North Carolina where a cheap railroad would be of very great value, while it will be many years before they will need a costly line. For example locomotives of one fourth the power and cost of ordinary engines, could transport with ease the products of Scotland Neck, the country around Chapel Hill, Oxford, Nashville, &c. If we could only get cheap grading and superstructure, such localities might be able with their present means to secure access to the main tracks in their neighborhoods.

I have myself, travelled on a railroad, which ran up grades of 200 feet to the mile, and turned street corners in villages—I was drawn by a "dummy engine," which cost only $4,500, and could easily draw 200 men twenty miles and hour. I believe many localities in North Carolina, say 15 or 20 miles from a railroad, could for much less than the usual cost, secure connection with the same by rail, with rolling stock, (including dummy engines) sufficient to accommodate all the wants of the inhabitants. B.

THEY THAT GO DOWN TO THE SEA.

It is said that at least five great ocean steamers have disappeared in the Atlantic, and left no trace nor hint of their fate, and that since 1857, eighty six steamers have been known to be wrecked at sea.

The loss of the City of Boston has set the paragraph writers to recalling many similar cases.

We are reminded in Appleton's Journal of the British frigate *Aurora* which, after touching at the Cape of Good Hope in 1769, on her way to India, was never again heard of. Of the French frigates *Astrolabe* and *Boussole*, under command of La Perouse, the great French navigator which left Botany Bay early in 1788, and were seen no more. The first ocean steamer that was lost was the *President* in 1841. She left New York in January of that year. Tremendous weather prevailed during the succeeding month, and unusual quantities of ice were seen at low latitudes. Among her passengers were Lord Lennox, son of the Duke of Richmond, and Tyrone Power, the famous Irish actor. We saw it stated twenty-one years after the President was lost, that the wife of one of the passengers living in Philadelphia, still hoped for her husband's return, and had had his chair and plate placed at her table every day as if she expected him at any moment.

In '54 the City of Glasgow sailed from Liverpool for Philadelphia with 480 persons on board, and has never since been heard of. In '56 the Collins steamer Pacific left Liverpool with 186 passengers on board, among whom were Eliot Warburton and Catherwood, the artist. In '62 the steamer Lifeguard left Newcastle and was supposed to have foundered off Flamborough Head.

In all these cases the ships have disappeared totally, leaving no traces nor fragments which could be identified. A nameless horror surrounds their fate, but as to the manner in which such terrible calamities may occur, we have only to recall the fate of the *Lefort* a Russian vessel of war of 84 guns, which in the year 1857 heeled over and went down bodily in the gulf of Cronstadt, within sight of her consorts, and carrying down 836 persons to instant death. No human tongue has survived to tell how the *Hungarian*, a Canadian steamer was wrecked. She was discovered on the rocks near Cape Sable, Nova Scotia, and though two hundred persons had sailed with her, the bodies of only three were found. The Prussian Corvette Amazon may be enrolled in this sad list. In 1861 she too disappeared in the ocean, and left no vestige of her fate.

Soon after the Pacific was lost, a sailing packet from Havre passed an immense iceberg in a much lower latitude than they are usually seen, and on a ledge of it saw distinctly a lady's work box. How came it there, and what was the story it might have told."

AMERICAN ISRAELITE CONVENTION.—This body, which met in New York on Monday, adjourned *sine die* on Tuesday evening. The special committee, previously appointed, to whom was referred the report of the executive committee, submitted an extended document as their report. The gist of it was that $100 in gold be distributed towards the support of the Jewish Hospital at Jerusalem; also that it was to be regretted that the United States were not represented in Roumania in order to intercede in behalf of humanity in favor of the Jews against persecution, and expressing satisfaction at the intention of President Grant to appoint shortly an American consul for Bucharest, who will receive proper instructions on this subject. [Mr. Simon Wolf here stated that President Grant had told him but a few days ago that Mr. Adolph Buchner, now residing at Bucharest, will shortly receive that appointment.] The third matter touched in the report was the immigration of Jewish refugees from Russia, expressing thanks to those who have taken care of them, and hoping that only such as are capable of severe manual labor will hereafter be sent. The Alliance Universelle Israelite, in Paris, and its president, Mr. Cremieux, were duly commended; the enactment of Sunday laws declared to be in opposition to the principle of religious liberty, referring especially to the making of Good Friday a legal holiday, as in Pennsylvania. This part of the report occasioned some debate, in which Mr. Wolf, of Washington, and Judge Joachimsen, of New York, took opposite ground, but the section was adopted.

A Boston colonel has succeeded in getting $40,000 out of the city in full for his claim for obtaining soldiers and sailors toward the city's quota during the war.

DOUBLE-ACTING FORCE PUMP.

SUBSTITUTE FOR A FIRE ENGINE.

THIS Pump will pump 30 gallons of water per minute, will never out out the packing, has no friction, no water ever stands in its pipes to freeze, and is less liable to get out of order than any other pump now used. It can be set up in a short time by any ordinary mechanic.

The No. 3 pump for yard wells will be sold at from $20 to $30, capable of throwing 20 gallons of water per minute. The price of No. 2 for railroad stations, throwing 60 gallons per minute, will be given upon application.

Having the exclusive right to this pump for the States of North and South Carolina, and having established a factory for the manufacture of them at Wilson, N. C., I will receive orders for them at Wilson, and will ship them by Express C. O. D., or, if the money is sent me, by the regular freight. The number of feet in the depth of the well must be given in all cases

WALTHAM

WATCHES.

THE EXTENSIVE USE OF THESE WATCHES for the last fifteen years by Railway Conductors, Engineers, and Expressmen, the most exacting of watch-wearers, has thoroughly demonstrated the strength, steadiness, durability and accuracy of the Waltham Watch. To satisfy that class in all these respects, is to decide the question as to the real value of these timekeepers.

More than 450 000 of these watches are now speaking for themselves in the pockets of the people—a proof and a guarantee of their superiority over all others.

The superior organization and great extent of the Company's Works at Waltham, enable them to produce watches at a price which renders competition futile, and those who buy any other watch, merely pay from 25 to 50 per cent. more for their watches than is necessary.

We are now selling Waltham Watches at less prices in greenbacks, than the gold prices before the war. There is no other manufacture of any kind in the United States of which this can be said.

These time-pieces combine every improvement that a long experience has proved of real practical use. Having had the refusal of nearly every invention in watchmaking originating in this country or in Europe, only those were finally adopted which severe testing by the most skillful artisans in our works, and long use on the part of the public, demonstrated to be essential to correct and enduring time-keeping.

Among the many improvements we would particularize:

The invention and use of a centre-pinion of peculiar construction, to prevent damage to the train by the breakage of main springs, is original with the American Watch Company, who, having had the refusal of all other contrivances, adopted Fogg's Patent pinion as being the best and fastest.

Hardened and tempered hair springs, now universally admitted by watchmakers to be the best, are used in all grades of Waltham Watches.

All Waltham Watches have dust-proof caps, protecting the movement from dust and lessening the necessity of the frequent cleaning necessary in other watches.

Our new patent stem-winder, or keyless watch, is already a decided success and a great improvement on any stem-winding watch in the American market, and by far the cheapest watch of the quality now offered to the public. To those living in portions of the United States where watchmakers do not abound, watches with the above mentioned improvements which tend to insure accuracy, cleanliness, durability and convenience, must prove invaluable.

Every watch guaranteed by the Company.

To prevent imposition, buyers should see that every watch should bear either of the following trade marks.

American Watch Co.,	Waltham, Mass.
Amn. Watch Co.	Waltham, Mass.
American Watch Co., Crescent St.,	Waltham, Mass.

SWEET QUININE

Is a Recent Improvement,

Replaces the use of the BITTER SULPHATE QUININE with which all are familiar.

One dose, it is

WARRANTED

Fully equal in every way to Bitter Quinine,

AND, LIKE IT, IS THE ONE

Great, Positive, and Unfailing

CURE

For all Diseases of Malarious Origin.

Fever and Ague,
Intermittent Fever,
Chill Fever,
Remittent Fever,
Bilious Fever,
Dumb Ague,

and the long train of disorders following these when neglected.

SWEET QUININE

is made solely from Peruvian Bark (as is Bitter Quinine), therefore is of Vegetable origin, and not a Mineral poison, but on the contrary is proved to be one of the elements found in the blood of all healthy persons.

SWEET QUININE

acts as an antidote to, as well as a cure for, malarial or miasmatic poison, the absorption of which by the lungs causes Intermittent Fevers, etc. The only advantage claimed for

SWEET QUININE

over the use of old Bitter Quinine is the entire absence of that intense, persistent bitterness, which in the latter is an insurmountable obstacle to its use with most persons, and always with children.

SWEET QUININE

is in two forms—in POWDER, for the use of Physicians and Druggists, and FLUID, for use in the family and for the general public.

MEETING OF EXECUTIVE COMMITTEE.

A meeting of the State Executive Committee of the Conservative party, is hereby called, to be held in the city of Raleigh, on Wednesday, the 8th day of June next; a full attendance is desired, as business of importance will come before the Committee. Among other things, the nomination of a candidate for the office of Attorney General.

The Committee is composed of the Central Executive Committee, and the Committees appointed by the signers of the Legislative Address for the several Congressional districts in the State.

THOS. BRAGG, Ch'm.

The following are the Committees appointed for the Congressional districts:

FIRST DISTRICT.

Chas. Latham, D. M. Carter and M. W. Ransom.

SECOND DISTRICT.

W. G. Morisey, Thos. S. Kenan, John Hughes.

THIRD DISTRICT.

J. A. Englehard, A. A. McKoy, T. C. Fuller.

FOURTH DISTRICT.

J. S. Amis, E. H. Plummer, R. W. York.

FIFTH DISTRICT.

A. W. Scales, Col. J. L. Morehead, M. S. Robbins.

SIXTH DISTRICT.

John E. Brown, R. F. Armfield, David Schenck.

SEVENTH DISTRICT.

A. C. Avery, W. M. Cocke, James R. Love.

BANKRUPT COURTS.

The Bankrupt Courts of North Carolina have been made the instruments of huge swindles, robbing a people already broken and unfortunate.

There are many poor men who have paid every cent of the cost in bankruptcy, and who are still denied their certificates of discharge, because they will not pay more.

Deweese, the former Commissioner in Bankruptcy for this State, received their money and gave receipts for it, but, thief like, made no entry of it on the books.—Mr. Shaffer, the present Commissioner, demands that they must pay over again, or he will not give them their discharge.

He says the parties who paid their money must pay over again and then go back on Deweese and his bondsmen for their money.

The Governor is one of Deweese's bondsmen, and he owes it to his position as Governor, and to his responsibility as security for a villain and defaulter, that honest men shall not be prejudiced and delayed in their rights by the villainy of his principal, John T. Deweese.

When that Federal Judge, Brooks, who commanded a company against the Federal Governments, opens his Court again, we shall see what he says about the liability of the Governor for the peculation and thieving of "Hon." John T. Deweese.

But for the Governor, Deweese never would have disgraced this district, and the whole State, by a seat in Congress. But for the Governor, Billy Henderson, (who was acquitted of stealing Darr's mule,) and Byron Ladin, would not have been made State Directors in the N. C. Railroad Company. But for the Governor, Swepson, Littlefield, Sloan and Jones would never have been made Railroad Presidents, nor would Stephens ever have sat a Magistrate.

O, what a desperate proclivity our Governor has for wicked men and wicked works!

MR. STEWART'S LETTER.

We publish to day, a letter from Mr. Duncan Stewart, of Detroit, to the Hamilton (Scotland) *Advertiser*, giving his impressions of North Carolina—her position, climate, scenery, products, &c., which will be read with much interest. We give the letter entire, which, on comparing with same as published in the *Standard*, a few days ago, we find was miserably garbled, by leaving out all of those passages that we have included in brackets.

The reason of this omission by the *Standard* will be apparent to all those acquainted with the tactics of that paper, in suppressing everything and ignoring every body, that does not serve to advance the interest of its party.—We are sorry to see this trait so strongly manifested by a North Carolina newspaper, especially in publications of this kind, but so it is, and so it always has been with that paper, and so, we suppose, it always will be. "Tis its vocation, Hal."

DUMB AS OYSTERS.

There has scarcely been a day for the last month, when we were in the city, that we have not been solicited by citizens of Wake, to address the people at some point or other in the county. We have, in nearly every instance, been obliged to decline, and have invariably referred them to the members of the Raleigh Bar. The reply has been "We can't get them to talk."

We think the Raleigh Bar ought to speak out; the people look to them for information. If they are not willing to come out for retrenchment and reform in the State government, let them do like Phillips and Richard—speak on the other side.

GRIEF FOR S. F. PHILLIPS.

A friend of this late gentleman, from the Eastern part of the State, writes us in the most sad and melancholy manner concerning him, and seems to look upon him as having been murdered, like Colgrove or Stephens; or like one of these, had been stealing and caught in the act.

He is not much distressed about Mr. Badger, because, he says, he never expected anything better of *him*; and he has known him a long time. He does not even exclaim, as Holden did, two years ago, when Dick "ratted" and "went back" on him, "O Richard! Richard! is it possible?"

DOBSON, N. C. May, 16, 1870.

JOSIAH TURNER, JR:—DEAR SIR:—I send you a letter addressed to Governor Holden, which I *would be glad you would present to him in person if convenient*, if not convenient perhaps it would be well enough to address him through your excellent paper; you can do just as you please in the matter, it is left with you.—What would have become of us if it had not been for you and the SENTINEL. I believe if it had not been for you they would have put in the Capitol or the N. C. Rail Road and sold it with the swamp lands. Be sure and take the first shot when the rascals come to kill you or "fall down" at you as Moore did.

They all know that Governor Holden will pardon any man who will kill you and all are mad enough and many of them mean enough to commit murder. Those who burn will murder.

W.

If our friend from Dobson, who once had great confidence in Governor Holden, had recurred to the files of the SENTINEL, he would have seen that we declined, even for a lady, Miss Sally Walker, to wait personally on the Governor.

"Hon." Eli Bledsoe is not now in our service, or we would make him present our friend's letter to *His Excellency*, the Governor, who is a special friend of Sloan, Deweese, Swepson, Littlefield, Jones, Billy Henderson and Estes.

We therefore take the alternative of sending the letter through our columns which is as follows:

DOBSON, N. C. May 16th, 1870.

His Excellency Gov. W. W. Holden:

DEAR SIR:—It is unquestionably the duty of all good governments, to protect her *loyal citizens*, and particularly to put a stop to depredations committed, by an organization known as the Ku Klux. A few days ago in this Township, a woman, by the name of E. Peel, whose character is not of the best, had been slandering two respectable young ladies of the same name. Putting on the garb of the Ku Klux, they visited the aforesaid E. Peel and inflicted on her about thirty lashes well laid on. This is certainly an outrage that ought to be severely punished, and in order to prevent a repetition of similar offences, I think it is unquestionably your duty as the executive of the State, to declare the county in a state of insurrection, and send up your militia; by doing so you will be able to kill two birds with one stone, first by preventing a repetition of the offence, and secondly by having them here until after the election so as to prevent the disloyal from attending the polls, for I assure you, that if something of this sort is not done, the *treely loil*, will be defeated at the approaching election. This matter will not admit of any delay; or the party of which you are the honored head will certainly go to the wall. Your *treely loil* friend,

W.

The following taken from the *Old North State*, exposes another Radical electioneering lie:

TO DISTILLERS OF FRUIT.

The following circular appeared in the columns of this paper, issued on the 6th inst.

ASSESSOR'S OFFICE, 6TH DIST., N. C.
May 2, 1870.

To Distillers of Brandy:

The law has been changed. You are required to give a bond of $500 in lieu of $5,000. Instead of two dollars per day, you pay ten cents on the gallon in lieu of the per diem tax. Special Tax is 20 dollars instead of 50 dollars. The whole tax on Brandy will be 60 cents, except the 20 dollars special. Surveys will be made at the proper time; put your distilling operations in good order. W. P. HENDERSON,
ASSESSOR 6TH DISTRICT, N. C.

As soon as it appeared the Statesville *American* and the Salem *Press* both expressed the opinion that the law had not been so changed—that it was an electioneering trick. To ascertain the fact the Editor of the *Press* addressed a letter to Hon. F. E. Shober in relation to the matter, and received the following in reply. The letters of Mr. Shober and Deputy Commissioner Given, for which we are indebted to the courtesy of Dr. Sites, of the *Press*, speak for themselves. It will be seen that no change has been made in the law, and that the suspicions of these papers were well founded:

Editor Salem Press, Salem, N. C.,

MY DEAR SIR:—I herewith enclose you, by way of reply to yours to me, of the 11th inst., a letter from the Deputy Commissioner of Int. Revenue from which it appears that assessor Henderson's notice is unauthorized by law, and that he has been directed to countermand it.

Very truly yours,
[Signed] F. E. SHOBER.

TREASURY DEPARTMENT,
OFFICE OF INTERNAL REVENUE,
Washington, May 17, 1870.

SIR—Yours of the 13th inst., transmitting printed notice, dated Assessor's Office, 6th District, North Carolina, the 2d inst., informing distillers of brandy from fruit that the law relative to their bonds had been changed, fixing the penal sum at five hundred dollars in lieu of five thousand dollars, is received.

In reply I have to say that no change of the character indicated by the notice referred to has been made in the law relative to the distillation of spirits from fruit, and Assessor Henderson has been directed by the Office to countermand the information given by him in his printed notice.

Very Respectfully,
[Signed] JOSIAH GIVEN,
Deputy Commissioner.

Hon. Josiah Turner:

I write you a short note to know if Col. B. C. Hopkins has sent to you a note to publish, denying that he is a Radical, or has any affiliation with the Radical party; he wrote one and showed it to M. A. Angier, and said he sent it to your office for publication. We have been looking for his card in the SENTINEL for several days, but found it not. He is an independent candidate for Sheriff in this county, I and others of the community wish to know.

You can publish this if you see proper.

In answer to the above, we have to say that we have never received the card alluded to.—[EDITOR.

CATTLE STEALERS AT WORK.—We were informed yesterday that considerable depredations among live stock in this vicinity have been committed recently. In the neighborhood of what is known as the Petteway place, some few miles from the city, about six or seven fine beeves have been stolen, butchered in the woods and the meat carried off within the last two weeks. Mr. Wm. Humphrey lost a fine one on Thursday night week. The cattle have been in the habit of running at large, but owners of stock now find it necessary to keep them up.—*Wil Star 26th inst.*

CONSERVATIVE DISTRICT CONVENTION.

At a Convention of delegates from the counties composing the 5th Congressional District of North Carolina, assembled in Greensboro', on Thursday, 26th day of May, 1870, for the purpose of nominating a candidate to represent this District in the next Congress of the United States,

On motion, Hon. John Kerr, was called to the Chair, and J. H. Welborn and Jas. A. Graham, Esqs., requested to act as Secretaries.

The Chairman, in a short but appropriate speech, explained the object of the meeting. Upon calling the roll of the counties composing the District, the following were found to be represented, viz: Alamance, Caswell, Rockingham, Forsythe, Stanley, Surry, Guilford, Randolph, Davidson and Person.

On motion, it was agreed that each county be entitled to cast a vote proportionate to its representation in the lower house of the Legislature.

On motion, a Committee on nominations was appointed, consisting of three from each county.

On motion, a Committee of one from each county was appointed to draft resolutions expressive of the sentiments of the Convention.

The Convention then adjourned until 2 o'clock, P. M.

At the appointed hour the Convention re-assembled, whereupon the Committee on resolutions, through F. C. Robbins, their chairman, reported the following which were unanimously adopted:

Resolved, 1st. That the platform of principles laid down in the address of the Conservative members of the General Assembly, of the 26th of March last, is endorsed by and meets the hearty approval of this Convention.

2nd. That the civil and political equality of the white and colored races is an accomplished fact, which the Conservative party has no inclination to disturb.

3rd. That the Conservatives of this District are a law abiding and peaceably disposed people, opposed to lawlessness and lynchlaw, whensoever and by whomsoever committed, and that the proclamation of the Governor of the State, declaring the county of Alamance in a state of insurrection, and that the civil law cannot be enforced therein, is a foul slander and libel, and stamps its author as a partisan, who, for party, will betray a people whom 'tis his duty to protect and defend.

4th. That Joseph C. Abbott and John Pool, by their speeches recently delivered in the United States Senate, have added their names to the list of official slanderers, who to make political capital and insure their own preferment, do not hesitate to asperse the fair name and fame of the good people of North Carolina. That while we could expect nothing better of Abbott, a carpet bagger, who knows nothing of and has no interest in our people, we had not thought that John Pool was so entirely lost to the sense of duty to a people among whom he has lived, and by whom he has been honored, as to join in with their vile traducers.

5th. That the tax on tobacco manufactories and distilleries, is unjust and oppressive, discriminating against the manufacturer and distiller of small means and in favor of the rich capitalist, and the law imposing it should be repealed.

6th. That the extravagance and corruption, in all branches of the State government, for the last two years, is without a precedent in the history of free governments, and that it behooves the good people of the State, regardless of differences of opinion as to past issues, now to join together to wrest from the hands of those who have abused their trust the power to do further wrong, and to place the management of our affairs in the hands of honest and intelligent citizens who have the interest and the honor of the people at heart.

The Committee on nominations, reported, through their chairman, Geo. Makepeace, that Hon. J. M. Leach, of Davidson, had been chosen, unanimously, as the candidate to represent the District in the next Congress, which nomination was unanimously confirmed by the Convention.

On motion, J. N. Staples, Wm. Long and M. H. Pinnix, were appointed to notify Gen. Leach of his nomination and request his acceptance.

After a short interval Gen. Leach appeared and in an able, elaborate and argumentative speech, exposing fully, the corruption of the present administration, accepted the nomination.

J. A. Graham, of Alamance, Hon. John Kerr, of Caswell, F. C. Robbins, of Davidson, L. M. Scott, of Guilford, and J. R. Winston, of Caswell, being called for responded in short but appropriate addresses.

On motion, it was ordered that the proceedings of the Convention be furnished to the Raleigh SENTINEL, Greensboro' *Patriot* and *Old North State*, with request that they publish.

On motion, the Convention adjourned.

JOHN KERR, Ch'm.

J. H. WELBORN, } Secretaries,
J. A. GRAHAM, }

We learn says the Wilmington *Journal*, that horse thieves were at work near Shee Heel, W., C. & R. R. R. on Tuesday night. They visited the residence of Mr. McKay Sellars and took from his stables a fine horse and buggy, and succeeded in getting off clear. The same night, and supposed by the same parties, a horse was also stolen from Mr. Robert M. McNair, a resident of that neighborhood.—It is supposed that the thieves have made off in the direction of Greensboro' or High Point, and a party of gentlemen have gone out in pursuit but, at last accounts, had met with no success.

Mack Baker, a Cincinnati man, went up in a balloon from McGregor, Iowa, on Monday evening, was carried eastward by a slight breeze, and when over the river he descended rapidly, falling in the middle of the river a mile below the town. Before boats could reach him he was drowned.

OFFICE OF THE N. C. LAND CO.
RALEIGH, N. C., May 9th, 1870.

Mr. Editor:

SIR:—We are in receipt of several letters from capitalists of Europe, asking us to forward them descriptions of some eight to ten large tracts of land, in different parts of the State, containing from 15,000 to 100,000 acres each, to settle colonies on.

Owners of such tracts, who wish to sell, will please forward to our office, description of their land, location, price, terms &c. This company makes no charge for land placed in their hands, unless a sale is made.

A prominent Shipping House of Liverpool writes us to day, asking if we will engage to furnish them with return freight, if they put on a line of Steamers to carry emigrants direct from Liverpool to Wilmington in our State. All they ask is for us to insure them this, and they will put on a steamer at once.

Here is an opportunity offered for us to ship the products of this good old State direct to Europe, without paying tribute to any of our sister States; who will assist us in bringing this about?

R. KINGSLAND, Secretary,
N. C. Land Company.

Introductory—North Carolina, its Position, Climate, Scenery and Products—Cheap Land—Personal Safety—Society—A Worthy Bank President.

It is many years since I had the pleasure of appearing before your readers. I had many tokens of approval from them when I formerly wrote for their instruction and amusement during the late rebellion. They will remember the truthfulness of my communications, and the exactitude with which my predictions were fulfilled. I had the best source of information to rely upon for what I stated; not one writer to any newspaper in Great Britain from this country was so near correct. I take great pleasure in renewing our acquaintanceship. It is a source of profound gladness to me. I trust it will excite the same feeling in you.

On coming once more in contact with you, I will aim at entire truthfulness in treating the subject I will place before you. It will take quite a number of short letters to enable me to tell my tale, which will be mostly new to all. I ask your patience and forbearance; I will trespass as little as possible upon either.

We have just returned from a most extensive tour in the States of North and South Carolina, Alabama, Georgia, and Louisiana. It is my observations on this journey that will be the subject of my letters on the present occasion. These States were in the very hot-bed of rebellion. I intend to write about their present condition and future prospects, both of which are of the most cheering description.—These countries are of great natural beauty and unlimited resources, rich in sunshine and shade, fruits, flowers, cotton, sugar, rice, cattle, corn, gold, copper, coal, great waterpowers, splendid central points for great manufacturing and commercial enterprises. The future greatness of these countries is beyond the power of the most gifted pen to describe; and were I, in my feeble way, to make the attempt, I must ingloriously fail, or be looked upon as a madman. Nature has left nothing undone. She has scattered every element of success around in the great at abundance. Man only needs to understand his interests and do his duty. I will also give you some light on the present and future of the negro race—their present mode of treatment, and the chances of their future improvement. You will see from this brief outline that I must address you many times before I can touch even slightly on so many themes, each one of them great enough for a volume.

I entered the South on the morning of February 18, 1870. I reached Norfolk *via* Baltimore by steamer. This town, as well as Portsmouth opposite, has improved immensely since the war, in trade, population, and importance. Grim earthworks on every hand remain monuments of our late deadly struggle. The land here is rich and flat, and continues so until we reach Weldon, on the famous Roanoke river. The Railroad from Portsmouth to Weldon runs across one corner of the great Dismal Swamp. From the little I saw of it, I consider it most appropriately named, for anything more dismal cannot be well conceived. Between the points just named, preparations for corn and cotton planting were being pushed with vigor; and just let me say here, that if a determination to raise all the cotton possible be a fair guarantee, the present season will increase the crop, and our British friends may sleep sound throughout Lancashire and Lanarkshire, and around Belfast. The need of working and willingness to work are becoming more apparent every day, and this is one of the most cheering signs of the times.

I will now suggest that all the boys and girls who read the *Advertiser*, and they number thousands, will get out their geographies and follow my further wanderings on the map. This will be a most excellent and practical study for them—they will read more understandingly and learn much more easily than they can in any other way. I desire to enlist their young hearts in this hitherto almost sealed up part of the globe, for in it I trust hundreds of thousands of the spare population of Scotland will find happy homes, as well as wealth. Many of them may rise to distinction as statesmen, bankers, merchants, manufacturers, scholars and artists; but for generations to come I hope there will be no opportunity for them to become military or naval heros.

Within a few years North Carolina will be able to absorb one million of emigrants, and I anticipate that a very large percentage of them will be Scotish farmers, mechanics and farm laborers. The Scotch are in great favor in this State, and as soon as the confusion incident to the war is over, I trust that the State will appropriate a sum sufficient to pay one half of the fare of at least twenty thousand Laborers from Glasgow to Raleigh, leaving it to the honor of the emigrant to refund when he gets able. I want all the boys that read your paper to begin now and save all their pennies, to help to bring them to a land where fortune stands with outspread arms to receive them. [I have discussed this matter with many influential men of the South. Every one of them approves of the plan. In no other way can I see any chance of North Carolina, Virginia, Maryland, Kentucky and Tennessee getting a supply of labor to take the place of the negroes who are leaving in large and small squads daily for the far South. In less than ten years negroes will be as few in number in these States as they are in the State of Michigan or the New England States. This great expanse of country is fast becoming the home of the white man, and no more delightful homes can be found on this broad earth, taking richness of soil, variety of products, serenity of climate, and chances of health. These States are emphatically in every sense of the word a white man's country.—The triumph of the North has opened up all these regions to the suffering, toiling millions of Europe, and given them another safety valve through which they can pass with safety from their high-pressure condition to the land of promise. This is still mere outline; we will come to particulars hereafter.]

If all the boys and girls, and some of the old folks, have got their geographies and maps ready, we will at once proceed with our account of North Carolina. Its astronomical position is between 33.50 and 36.30 north latitude, and 75.25 and 84.30 west longitude, from Greenwich. You will see it lies much further south than Scotland. The lands near the sea coast are low, flat, rich, and more or less infested with fevers and agues, and are not at all adapted to fresh arrivals from northern Europe.—Europeans either as planters or laborers should not settle further east than Warren, Franklin and Wake counties, and for the first few years not here south of the south line of Wake county. From these counties west the land is rich, healthy certain, a climate that cannot be excelled, and scenery equal to the finest in any part of the world. From Raleigh, the capital of the State, westward, the lands become more and more elevated, till near the eastern line of Tennessee you come upon Clingman's Peak, the highest summit east of the Rocky Mountains. It is 6,944 feet high, or twice as high as Ben Lomond, and a little over four times the height of the Pentland Hills, or higher than three classic *knowes* piled on top of Ben Nevis. These local comparisons will enable you to form some idea of the mountains of western North Carolina. Mitchell's Peak is 6,732 feet high. Ross mountain is 6,270 feet, and its top is a great broad meadow.

This is the land of corn and cattle, clear streams, speckled trout, buoyant spirits, "stalwart men and bonnie lasses," and apples and peaches of the variety that must have flourished in Eden. All kinds of vegetables thrive most luxuriantly in this section. These mountains are fine grazing lands to their very tops. Their high elevation keeps them cool in summer, or rather renders them delightful homes; on the other hand, their far South latitude gives them a sort of south of England winter, only a little colder.

From this region will pour forth in a few years the Dunlop, Cheddar, and Cheshire cheese of America. Its butter, wool, mutton, and beer will be famous in the cities of Baltimore, Philadelphia, New York, Boston, and New Orleans. Its hams and bacon will vie with the most savoury and delicious of these articles now cured in Cincinnati or Louisville. The Scotch or English stock farmer who purchases largely of these lands to day, if not over 45 years of age, and who commences to stock them up, will live to see his children among the wealthiest in the country.—Skill and capital will meet a large and sure reward in this section of the State.—Before reaching this mountainous country you come to a great table land 1000 to 3000 feet above the level of the sea. Wheat, cattle, and fruits of all kinds, peaches, apples, apricots, nectarines, wild grapes, and an immense variety of berries can be raised here to great advantage, as well as oats, rye and potatoes—the latter also grow among the mountains in considerable abundance and in great perfection.

In all the district of country I have recommended, lands are plenty and cheap, the impoverishments of the war compelling many of the great landholders to part with estates or portions of them.

I now come to the question of personal safety. On this point I will say that settlers coming here either as planters or laborers, will be as safe as in any corner of Scotland—that the native inhabitants will extend to them in good faith the right hand of both fellowship and friendship, and that well-educated, refined and respectable families becoming planters, will have no trouble in entering the best society in the State. Old North Carolina has large numbers of first class families, and I am glad to say very many of them are of Scotish descent, of which they are justly proud. Some of these families are descended from the younger branches of some of the best houses of Scotland. [Among these I may mention the Grahams, of Hillsboro'. The present head of the house, Ex-Governor Graham, is one of the most polished and scholarly gentlemen in the United States. He is well described by an admirer, who "stumped" a portion of the State in Mr. Graham's interest when he ran for Governor. Said his friend—"Mr. Graham has the personal appearance, dignity, and scholastic attainments that becomes a Governor. He acts like a Governor—he speaks and feels like a Governor. His cultivated taste, polished manners, and scholarship will adorn the office, while his keen sense of honor will make him rigidly just. He is every inch a Governor, and shall be Governor." He carried the election, and on all sides testimony is borne to the fact that he was one of the ablest and most upright men that ever held office in North Carolina.]

Said my informant, "It is not as statesmen and scholars alone that Scotsmen honor the land of their ancestors. The day laborer has done it equal credit in his humble walk in life. There once lived," said he, "in this city of Raleigh, two stone masons who had come from Scotland, and their Christian walk and conversation, industrious habits, stern honesty of purpose, and kind hearts, showed many what true religion was, and how it could elevate the most humble. I sat," continued he, "by their deathbeds—they were old men when they died—and was edified and comforted, and had my faith strengthened by their quiet, calm exhibition of a perfect faith. They talked in a familiar but reverential tone of the leading characters of the Old and New Testaments, and seemed as if the great and the good there mentioned had been their most intimate companions through life."

He who sat by the dying couch of these Scottish worthies was not in their walk of life—he was not a countryman, but he was much more nearly allied to them, for he was a brother in the faith.

The manner in which I made the acquaintance of this gentleman was most singular. I had gone to the rear end of the railway carriage in which we both sat to get a drink of water. On passing him he looked at me for a moment, then said, "Will you pardon me, sir, if I ask if your name is Makepeace?" "My name is Stewart," I replied. "But you are from Scotland," said he. "I was born there, but have long been classed among her absent sons," was the answer.—"Two Scotish gentlemen (brothers) and old and respected friends of mine, own some cotton mills near Raleigh, and you look so very like them, I concluded you were one of their relatives from Scotland on the way to visit them. This is why I asked if your name was Makepeace, that being the name of my Scotish friends, so you must pardon my rudeness for putting the question." He offered me most politely the half of his seat, which I accepted with thanks, and the balance of the journey to Raleigh was one of unalloyed pleasure as I listened to his clear and most excellent description of the present state of the country and its future prospects. So I am obliged to my two (to me) unknown countrymen, the Makepeaces, for making the acquaintance of a most pleasant gentleman and excellent man, and I hope that they and their mills may long flourish in North Carolina, and that they may continue to deserve the respect and friendship of the worthy Bank President.

The good services of my financial friend did not end with our conversation in the cars. On our arrival in Raleigh, no omnibus or other conveyance was at hand to carry myself and the other passengers to the hotels. This seemed to annoy our friend. He said he never knew this want of attention to occur before, and he was afraid it would give me a bad impression of the place as well as of the people. Turning to me he said, "Our town of Raleigh is like Washington—one of magnificent distances, and you cannot well find your way to the hotel through the poorly paved and imperfectly lighted streets, but if you and these three gentlemen will accept of me for a guide, I will show you the way," and although he must be well up to seventy years of age, he walked with us to the hotel, one half mile distant. This polite courtesy was extended to us by an entire stranger; but I found afterwards that he was only a fair type of the Southern gentleman. It will be a long time before a bank president in Europe, or even in the Northern States, is found by the dying bed of a poor stone mason, or walking half a mile to show four strange gentlemen their way to the hotel. I think his dignity was not lowered any by either act.

DISTRICT CONVENTION.

The District Conservative Convention will be held in Franklinton, June 6th and 7th, to nominate candidates for Congress, and to make arrangements for the Congressional campaign.

COUNTY CONVENTION.

The Wake County Convention will meet in Raleigh on Saturday, June 4th, to appoint delegates to the Franklinton District Convention.

New Ads.—Don't fail to read the new advertisements of W. H. Jones & Co; T. H Briggs, and the formation of a law copartnership between Hon. Asa Biggs, and Hon. W. N. H. Smith, both formerly of this State, now located at Norfolk, Va.

Speaking at Haywood.—The Editor of the Sentinel will, by invitation, address the people of Chatham, at Haywood, on the Chatham Railroad, on Friday, June 10th.

To Correspondents and Secretaries of Public Meetings.—Our correspondence has increased to such a bulk that we shall be unable to publish all the favors of our correspondents. We respectfully ask our friends to make their communications as short as practicable.

Secretaries of Public Meetings will please make out their proceedings plainly, when designed to be published in the Sentinel, make them short, and write only on *one* side of the sheet.

We will do the best we can for our correspondents, but we hope they will bear with us, if we should, for want of space, appear to neglect them.

Radical Meeting Last Night.—The Rads of East Ward held a meeting in the Court House last night, to appoint delegates to the County Convention. The only remarkable features of the meeting were, that Richardson came to keep them straight; James Fontleroy Taylor made a speech, in which he said, James H. Harris' election to Congress would be an uphill business, and if he should be elected, he could not draw a bill; at which interesting point, Farriss moved an adjournment, and the meeting adjourned, leaving James Fontleroy nine paragraphs short of his poetic perpetration.

Trouble in Bertie.—At a Republican meeting, held at Colerain, Bertie County, recently, it was unanimously, "Resolved, that the proceedings of a Republican meeting, held on the 7th of May, in the town of Windsor, be declared null and void."

Now, when the Windsor negroes meet again, what will they resolve in regard to the proceedings of the Colerain meeting? Messrs. Badger and Phillips ought to be sent down there to restore harmony; as we don't suppose the Rads of that section have much confidence in their *old* leaders.

High Water.—We learn from various directions that the recent rains have produced freshets in the streams throughout the middle section of the State, and considerable damage has resulted to crops, fences &c.

We learn that Messrs. King & Whitelaw, whose brick yard is located some two or three miles from the city, lost about 200,000 bricks, by the water overflowing the yard.

The wheat has also been considerably damaged by the rains and by the wind of Thursday afternoon. It is feared that many bridges will be washed away on the streams in this county.

People's Building and Loan Association.—The operations of this Company have, thus far, been highly favorable to the Stockholders. The profits, we learn, justify a handsome premium on Stock, considering the short time the Association has been in existence. The Directors, however, in order to encourage subscriptions of Stock, and thereby enable our people to avail themselves of the benefits of the Society, have concluded to defer exacting a Premium until the next monthly meeting, which will be on the 7th of June. Now is the time, therefore, for those wishing stock to subscribe for it.

Kittrells Springs Female College. The Commencement exercises of this institution will come off on Tuesday, June 7th. Address at 11 o'clock, A. M., by Maj. Seaton Gales, of Raleigh; Graduating exercises and Concert at night.

On the Sabbath previous, the annual sermon will be preached by Rev. J. G. Whitfield, at 11 A. M.; and a sermon at night by Rev. Paul J. Caraway.

The next session will open on the first Wednesday in July.

On Wednesday last, while the guard at the Greensboro' jail were giving the prisoners their rations, Carter Smith, Sam Smith and John Harris, all colored, rushed out of their cell and overpowered the guard, who, however, had presence of mind sufficient to detach his pistol from its scabbard and throwed it to a colored boy who had brought the provisions who, to his credit be it said, on their refusing to surrender, fired on them, only missing Carter Smith's head about an inch; all three then made good their escape from the enclosure.—Smith and Son were re-captured in Mr. H. H. Tate's wheatfield, in the suburbs of the city, after a most desperate resistance, in fact the elder Smith was disabled before he would allow himself to be taken. The other, Jno. Harris, made good his escape, but we hope he will be in his old quarters ere long.

We get the above from the Greensboro' *Patriot.*

Thursday's proceedings of the State Medical Society Convention, held at Wilmington, were crowded out to-day, they will appear Monday.

Tutt's Improved Hair Dye is admitted on all sides to be the most simple and natural Dye ever invented; it is easily applied, does not stain the skin, leaves the hair soft and glossy, and is instantaneous in its effect. Try it and you will use no other.

The Popular Tonic of the Age.

The day has gone by when a medicine without merit could command and retain the confidence of the world. Advertising induces the public to try many things, but in this shrewd and thoughtful age, words will not suffice without proofs, and it is by the exercise of their private judgment, men determine the relative value of the various articles recommended to their notice through the business columns of newspapers. Hostetter's Stomach Bitters has now been subjected to this searching ordeal for more than eighteen years, and the result is that it stands at the head of the class of remedies to which it belongs. It has distanced and lived down innumerable competitors, and is to-day the Standard Vegetable Tonic of the western world. The happy effects which have followed its use in cases of dyspepsia, biliousness nervous affections, intermittent fevers and general debility, and as a constitutional invigorant, have entitled it to universal confidence. Nothing can ever shake its reputation, for it is based on the individual experiences of tens of thousands of witnesses, embracing prominent and well known citizens of every profession, occupation and class. There is not a city, town or settlement, in the United States where it is not a medicinal staple. No druggist or general dealer would consider his stock complete without it, and the returns of the internal revenue department show that its sales exceed those of any other proprietary restorative manufactured on this side of the Atlantic. The beneficial results derived during a long series of years from the use of Hostetter's Bitters, have convinced the whole community that the only true way to restore to health a broken down or debilitated system, or to put the human body on its defence when exposed to unwholesome influences, is to *invigorate, regulate* and *purify* it at one and the same time.

my 25 eod1w

A Radical Objection.—The Asheville *Pioneer* of the 26th inst., says; "the nomination of James H. Harris for Congress from the Fourth District of the State, has given general satisfaction, and the indications are that his election is a certainty.—Harris is a man of ability, and a true gentleman. The only objection that can be raised against him is his color."

Then, in the estimation of the *Pioneer*, his color is an objection.

Fine Cherries.—Mr. B. J. Perkinson, residing in this county, left on our table, yesterday, a very liberal sample of cherries, grown in his orchard. There were four different kinds of them, and all good, but the Black Tartarian and Wax are of very superior size and delicate flavor. Persons who have never tasted any of these fine species of the cherry, can form but an imperfect idea of what a delicious fruit it is.

Starving Israelites.—Nine or ten thousand Jews in the city of Jerusalem are perishing from famine. In London an association has been formed for the purpose of relieving present distress and for establishing permanent industrial institutions among them. Perhaps among no class of people are the poor and disabled of their own kind better cared for than by the Hebrews. From this country, therefore, we do not doubt that a large sum will be sent to Jerusalem, and that measures will be taken to co-operate with the London society.—*New York Sun.*

1840 PAIN KILLER 1870

Time tests the Merits of all Things.
FOR THIRTY YEARS
Perry Davis' Pain Killer,
Has been tested in every variety of climate, and by almost every nation known to Americans. It is the almost constant companion and inestimable friend of the missionary and the traveler, on sea and land, and no one should travel on our Lakes or Rivers without it.

It is a speedy and safe remedy for burns, scalds, cuts, bruises, wounds and various other injuries, as well as for dysentery, diarrhœa, and bowel complaints generally, and is admirably suited for every race of men on the face of the globe.

Be sure you call for and get the genuine Pain Killer, as many worthless nostrums are attempted to be sold on the great reputation of this valuable medicine.

☞ Directions accompany each bottle.

Price 25cts, 50cts, and $1.00 per Bottle

PURELY MUTUAL. DIVIDENDS PAYABLE AT THE END OF THE FIRST YEAR AND ANNUALLY THEREAFTER.

The insuring public should not allow itself to be deceived with regard to the term "Annual Dividends." Many companies using this expression mean that their dividends are "annual" after the third, fourth, or fifth premium.

One hundred Dollars paid in dividends, at the end of *one year*, and each year thereafter, equals FOUR HUNDRED AND THIRTY-SIX DOLLARS paid at the end of FOUR YEARS, interest at six per cent.

Messrs. Pepper & O'Connor, of Raleigh, N. C., have leased these well-known premises, which are now undergoing thorough repairs and painting, and beg respectfully to announce that the place will be
OPEN FOR THE SUMMER SEASON
on or about
June 1st, 1870.
The premises will be under the sole, immediate control of Mr. W. R. Pepper, well and favorably known to the frequenters of all the most celebrated summer resorts of this State and Eastern Virginia. His reputation as a caterer will be received as a sure guarantee of the manner in which the MACON HOUSE will be conducted. Everything conducive to the comfort and convenience of visitors will be supplied.

Nature made Beaufort Harbor second to no surf and deep-water bathing-place in the world. It will be the aim of Messrs. Pepper & O'Connor to establish this truth. Visitors may rely upon an earnest, honest effort to make their stay pleasant and agreeable.

Arrangements are being made with the Presidents of the several Railroads of the State with a view to
WEEKLY EXCURSION TRAINS
at greatly reduced fares. Bathing and Excursion parties for the Banks will be organized and conducted by skilful boatmen and experienced fishermen; also, parties for the celebrated Posy Pennings on the Banks.

Due notice will be given of the Opening Day and Opening Ball.

NON-EXPLOSIVE COMBINATION BURNING FLUID

THE CHEAPEST, BEST AND SAFEST ILLUMINATING AGENT IN THE WORLD!!

No more Exploded Cans!—No more Exploded Lamps!
No more Smoke!—No more Grease!
No more Fires!!

EVERYBODY PREFERS IT AFTER GIVING IT A TRIAL!

IT costs less!—It lasts longer!—Gives a more Brilliant Light!—May be burned in hand lamps, without chimney.

Guaranteed to make a better and safer Light than Coal Oil and to be NON-EXPLOSIVE!!!

No accidents have ever happened with it.

Protected by Copy right for 28 years from May 8th 1868.

The above Fluid has been in constant use for upwards of three years, and has sustained its unrivalled reputation, as a brilliant, non-explosive illuminating agent, though subjected to the severest tests. Being universally conceded to be superior to Kerosene or Coal Oil. It makes a better light and more of it, than any other illuminating compound. Soft, clear, steady and uninjurious to the eyes. All that is asked is, a fair and impartial trial.

Among the numerous testimonials received read the following:

PHILADELPHIA, March 15th, 1869.

The undersigned, having witnessed the experiments of Messrs. Hale & Co., with their Combination Burning Fluid, take pleasure in commending it to the public. The various tests to which the Fluid was subjected, was in the highest degree satisfactory. We have no hesitation in pronouncing it to be a *safe and brilliant* illuminating agent. Its cheapness added to its other good qualities, should insure its introduction into every family in the country, where Kerosene Oil is used.

Henry, Gauger and Inspector Coal Oil Philadelphia; Evans, Stone & Davis Dealers in Petrolium 104 Arch St., Philadelphia.

Testimonials without number from citizens of this, as well as those of other States might be published, but the above is sufficient. Any person having the Right can make 8 to 10 bbls, of the Fluid in an hour.

H. R. GOODLOE,	General Agent for N. C.
DR. E. BURKE HAYWOOD,	Examining Physician.
Gen'l. S. B. BUCKNER,	Manager Southern Dep't.

The Globe has peculiar claims upon the Southern country, from having first introduced the non-forfeiting feature in all its policies. Its President, Mr. Pliny Freeman, was the inventor of the ten-year, non-forfeiture plan, and introduced it in the Company with which he was then connected.

The Globe takes no notes; but receives its premiums in cash, and pays its policies in cash, without deduction.

To those desiring it, the Company will issue policies, registered and certified by the Superintendent of the Insurance Department of New York, as "secured by pledge of public stock."

DE SOTO MUTUAL LIFE INSURANCE

COMPANY,

OF ST. LOUIS, MISSOURI.

JAMES P. LUCAS, President.

CAPITAL STOCK, (PAID UP,) $150,000.00!

Stockholders bound for Double the Amount of Stock!

$100,000 DEPOSITED WITH THE INSURANCE DEPARTMENT OF MISSOURI.

THE MOST SUCCESSFUL CASH COMPANY IN THE WEST!

The Stock of this Company is owned by the Capitalists of Louisville, Ky., and St. Louis, Mo. It is emphatically a Western and Southern Institution.

The DE SOTO has no desire to exalt its merits over those of other good Companies, nor to prosper on the decline of others, laboring in the same fields, and for the same grand object. Confident of its equal advantages with others, of whatever age or standing, it is willing to labor honorably for success, and hopes to deserve the public confidence by its energy, industry, and liberal spirit.

From the Missouri Republican.

"Few Companies have started out with such gratifying and flattering prospects of success, and under such favorable auspices. The Company has been extremely fortunate in the selection of its Directory. Its President, JAMES B. LUCAS, needs not a word of commendation from us. He enjoys a general reputation as a gentleman of wealth, unquestioned integrity, practical good sense, sound judgment and splendid business capacity.

The Directors rank among the first class of our merchants, bankers and citizens as men of capital, financial ability and experience: men of probity and unblemished reputation. In the character of such a Directory, the community have the best guarantee that the business of the Company will be prudently and judiciously managed."

Policies issued on all the popular plans and all Non-Forfeiting.

Policy-holders may travel by the usual modes of conveyance, either by land, river, lake or coast wise, in any portion of the United States and Territories, the settled portions of the two Canadas, Nova Scotia and New Brunswick, and in time of peace may cross and recross the Atlantic Ocean by the usual passenger routes to, and travel and reside within, any portion of Europe.

WANTED—AGENTS—$75 to $200 per month, everywhere, male and female, to introduce the GENUINE IMPROVED COMMON SENSE FAMILY SEWING MACHINE. This Machine will stitch, hem, fell, tuck, quilt, cord, bind, braid and embroider in a most superior manner. Price only $18. Fully warranted for five years. We will pay $1000 for any machine that will sew a stronger, more beautiful, or more elastic seam than ours. It makes the "Elastic Lock Stitch." Every second stitch can be cut, and still the cloth cannot be pulled apart without tearing it. We pay Agents from $75 to $200 per month and expenses, or a commission from which twice that amount can be made. Address SECOMB & CO., PITTSBURGH, PA.; BOSTON, MASS., or ST. LOUIS, MO.

CAUTION.—Beware of all Agents selling Machines under the same name as ours, unless they can show a certificate of agency signed by us. We shall not hold ourselves responsible for worthless Machines sold by other parties, and shall prosecute all parties either selling or using Machines under this name to the full extent of the law, unless such Machines were obtained from us or our Agents. Do not be imposed upon by parties who copy our advertisement and circulars and offer worthless Machines at a less price.

UNPREGEDENTED SUCCESS

Paris Exposition, 1867.

Medal Awarded by the

THE AMERICAN COMBINATION Button Hole & Sewing Machine

Has been honored with the *highest award* in premiums and diplomas wherever entered for competition at *fairs* and *exhibitions* held during the past season.

THE SIMPLICITY, EASE AND CERTAINTY with which this machine operates, as well as the uniform excellence of its work, throughout the entire range of Sewing, in

Stitching, Hemming, Felling, Tucking, Cording, Braiding Quilting, Gathering & Sewing on, Overseaming, Embroidering on the Edge, and its Beautiful Button-Hole and Eyelet Hole Work,

Place it unquestionably far in advance of any other similar invention.

It is also the CHEAPEST intrinsically, as well as the BEST, since it is really TWO MACHINES combined in one, (by a simple and beautiful mechanical arrangement never before accomplished by human ingenuity,) making either the Lock Stitch or Button-Hole Stitch, as occasion may require. It is, at the same time, simple in construction, comparitively noiseless, easily understood, and in a word, it combines with these ADVANTAGES, EXCLUSIVELY IT'S OWN, THE MOST DESIRABLE QUALITIES OF ALL OTHERS.

The public are invited to examine this remarkable machine at Mrs. Thompson's Boarding House, (Mrs. Thompson's old stand,) Fayetteville Street, and at Watson's Photographic Gallery.

Instructions in the use of the machine will be given to all purchasers *gratis*.

POLICIES VALUABLE IN LIFE, AS WELL AS AT DEATH!!

THE BROOKLYN LIFE, IS THE ONLY COMPANY IN AMERICA, WHICH GUARANTEES

DEFINITE CASH SURRENDER VALUES,

IN CASE A POLICY IS FORFEITED FOR NON-PAYMENT OF PREMIUM.

The BROOKLYN LIFE enjoys the highest reputation *for judgment of investment, economy of management, and skill and care in the selection of risks*,—upon which elements of administration the security of a Life Insurance Corporation depends

The laws of New York compel Companies in that State to calculate the Cash value of their Policies, each and every year, and *a certain legal standard of reserve and accumulation must be held by the Companies to meet all their liabilities.*

Insurers in looking around for Companies in which to insure, should carefully seek for this important SAFEGUARD. It will be found in the BROOKLYN LIFE.
